

**JOURNAL OF  
HUMANITARIAN  
ENGINEERING**

## SUBMISSION GUIDELINES

All paper submissions for the *Journal of Humanitarian Engineering* are to be submitted electronically via the JHE website: <http://www.ewb.org.au/jhe/>. Authors are required to register and submit their paper by following the 'Register' link on the home page. All submission enquiries can be directed to the Editorial Team: [journal@ewb.org.au](mailto:journal@ewb.org.au)

Submission style and templates: Please download the paper template which can be found in the 'Author Guidelines' heading in the 'About' section on the JHE website: <http://www.ewb.org.au/jhe/>. The template consists of the full formatting instructions required for submission. For ease of editing it is requested that the paper be submitted as a Microsoft Office Word text document (or equivalent with .doc or .docx extension) and that the length of the submission does not exceed 8 pages.

More information is available on the JHE website: <http://www.ewb.org.au/jhe/>

## JOURNAL OF HUMANITARIAN ENGINEERING

# ABOUT JOURNAL OF HUMANITARIAN ENGINEERING

Humanitarian engineering is about applying and developing technology – not to meet a market or financial opportunity – but to address a real human need. It is about serving a disadvantaged community or group, often overlooked by traditional engineering and technology projects. From poverty alleviation to disability access, humanitarian engineering highlights a new approach to developing and implementing technologies. The JHE was established in 2012 to provide a forum for such research to be published. The JHE is published by the Education and Research arm of Engineers Without Borders (EWB) Australia.

Research that collects dust on shelves or is stored away in the depths of an electronic archive is research that fails to make an impact. Dissemination is key, and this is why the JHE is free to submit to and free to access. This is made possible by a hard-working team of volunteers and generous support from EWB Australia's partners.

We love to receive contributions from all occupations within the sector; practitioners, policy-makers, academics, students and communities themselves. We encourage submissions which focus on the application of engineering and technology for the benefit of disadvantaged communities; topics include, but are not limited to:

- Water, sanitation and hygiene
- Waste treatment
- Appropriate technologies
- Renewable energy
- Disability access
- Affordable housing and construction
- Information and communication technologies
- Humanitarian engineering education / service learning
- Applications of humanitarian engineering in policy and practice

Please note that “humanitarian engineering” is often known by a plethora of other names, some of which include “development engineering”, “global engineering”, “technologies for development” and “appropriate technologies”. We are very happy to receive submissions from all of these fields.

If you are interested in submitting an article but may require some assistance in preparing a submission in English, please contact us ([journal@ewb.org.au](mailto:journal@ewb.org.au)) as we may be able to support you with authorship mentoring.
